

ARIZONA JOURNAL-MINER

DAILY AND WEEKLY.

Oldest Paper in Arizona. Established 1861.

Published by Journal-Miner Company.

J. C. Martin, Editor and Manager.

MEMBER OF ASSOCIATED PRESS

Official Paper City of Prescott.

Entered in the Postoffice at Prescott, Arizona, as Second-Class Matter.

THE DAILY JOURNAL-MINER is published every day in the year except Sundays and Holidays.

THE WEEKLY JOURNAL-MINER is published every Wednesday at PRESCOTT, the County Seat of Yavapai County.

THE EASTERN OFFICES of this paper are at 134 Temple Court, New York City, and U. S. Express Building, Washington Street, Chicago. E. KATZ Advertising Agency in charge, where the paper is kept on file.

THE JOURNAL-MINER will be continued until ordered stopped. Bills are sent to agents and subscribers are requested to pay in advance as promptly as possible. Subscribers who desire the paper stopped at any time are requested to send notice in this office and pay up the amount due.

TERMS: Daily, per year in advance, \$5.00; Six months, \$3.00; Three months, \$1.50; Single copies, 5 cents.

WEEKLY JOURNAL-MINER and St. Louis Globe-Democrat, \$3.00; San Francisco Call, \$2.00; San Francisco Chronicle, \$2.00; Philadelphia Press, \$2.00.

PLUCK NOT LUCK.

Following is an editorial printed in the New York Journal of Commerce:

"A few years ago no enterprise that did not bear on its face the stamp of success, perfectly plain and commonplace, had no ghost of a chance with the men who had large capital. Telephone stock at that period was the wildest sort of 'hot' speculation, and the ordinary banker or other business man would have thought it almost as much to his detriment to be known as an investor in the telephone machine as to have it generally understood that he was addicted to visiting gambling saloons. The result was that all the big men in the money market allowed the telephone to get by them, and a brand new crop of millionaires was made when the new invention was made a great public convenience, with an almost unlimited possibility for profit and an inherent quality of monopoly.

But now things have changed. They have been undergoing a change for a number of years past. Some of the shrewdest investors have bought mining and oil stocks when the stock was low, and another bunch of men with money, a good many of them millionaires, is growing up rapidly. Even the rich men have not forgotten the lesson of the Bell telephone.

Buy stocks in good companies. You are sure to make from 100 per cent to 1000 per cent and more, and you can afford to hold your stock for the high premium it goes to and the dividends you will get from it. The Standard Oil stock and the Constock mines were cheap once. The former sold at 67 cents a share, and has gone to \$800 a share. The Constock could be bought for a dollar and sold to \$2000 a share.

If you buy stock in companies which are solid as a rock, organized thoroughly, with every assurance of paying you big profits, and also buy stock in companies that are not so good, but which may become producers, the probability is at the end of a few years the ones that have turned out to be profitable will more than offset all your losses in investments in bad or indifferently managed companies. Two or three may have gone to the wall, but you have made money, and you can't make it in such bunches in any other field of activity in business. What other investment, aside from mining (and oil is mining), can be found that will pay such a premium? Wealthy men, who are abreast of the times, and for that matter men who are not wealthy, are flocking to the mines and oil fields, and men who have a few hundred dollars to invest from time to time, realize today what money can earn when placed in the right channels, and they naturally look into new enterprises, as all men should do, and buy stock in those which appear to have merit. A man or woman is fortunate or unfortunate, depending wholly upon what he or she does. Affirmative, assertive decision is productive. Conservative decision is decision to do nothing. You cannot make money leaving things alone. To make money you must take hold. Real estate, life insurance, the loan associations, savings bank investments all are good in their way. They are claimed safe investments. Have you made any big money from any of these investments? In 1850, you will remember, over 900 banks failed.

Over fifty per cent of the mines in, third of them, succeed. Don't consider your dollars as hospital food and make investments of them. Get a good job for your family of dollars, whether large or small. See them work, compound, multiply and breed dividends."

LOOKING FOR CLEAN SWEEP.

It is evident that both democrats and republicans are looking for a big republican victory in 1904. This is shown, so far as regards the democrats, by the way they put forward aspirants for their nomination. Not one of the half dozen or dozen Cleveland newspaper boomers have said or intimated that he would have any chance of election. What they did say was that he would keep down the republican majority in the electoral college to a smaller figure than would any other democrat who could be made.

This is the way also that the boomers for Parker, for Gorman, for Bryan and for all the rest of the democratic nomination possibilities talk. No democrat expects to see a democratic victory in 1904. This feeling of republican ineluctability for 1904 is perhaps responsible for the prediction of Representative Slem of Virginia that the republicans have a good chance to carry that state next year.

No rainbow chasing southward will be engaged in by the republicans in 1904. One of the reasons for this is that none of the Southern states will be necessary for the success of the republican ticket. Several times in the past the republicans had hopes of making big gains in the South, but always these accessions failed to materialize. At the present time the republicans are giving very little thought to the Southern states in a political way.

Until the South asserts its independence and gets a voice in the big conventions and at the polls, nobody will take any notice of it in a partisan sense. It would please the republicans exceedingly to win Virginia and several of the other Southern states in 1904. Such a change would benefit these states materially as well as socially. Moreover, the winning of one or two of them next year is within the scope of possibility. But the republican party can sweep the country without getting an electoral vote from any of the present solid South, and consequently it will not take the South into consideration in the selection of its ticket or the framing of its platform.

The body of the late D. Moynahan was taken to Youngstown, Ohio, where the funeral was held today. Mr. Moynahan's death was a great loss to this county has felt for a long time, he having been a mining man of the stripe that build up and develop a country in a substantial manner. While he was a man of very few words about his business he went right ahead and did the work, and all with whom he was associated. He employed a large number of men on the different properties in which he was interested and not a man out of them all but honored and loved him. He had the confidence of his men in his ability in directing mining operations.

The Ferris wheel, the massive structure which was one of the main attractions during the world's fair in 1893, has been sold at public auction. A junk dealer bid in the wheel, and the sum paid for buildings, boilers, etc., was \$1800. The wheel cost originally \$32,000. Outstanding against it are bonds amounting to \$300,000 and a floating debt of \$100,000.

The exports of the United States for the month of April made a new record, a record for the greatest exports in April in the history of the nation. They were, in round numbers, \$10,000,000. The greatest part was of course to England. Imagine our paying tariff 50 or even 100 per centum on this.

Forty wrecked automobiles strewn the course of the recent automobile race in France and Spain. These machines represent a total value of not less than \$22,000. It is to be wondered at that auto-manufacturers maintain that this form of racing is necessary to the success of their business?

The Roosevelt administration is winning the confidence of the people by the manner in which it is going to the bottom of things in the post-office department and routing out the criminals. Some editors appear to have forgotten, by the way, that MacKen was a democrat.

John Bull has just added to his possessions three islets in the Pacific ocean. They have neither products nor inhabitants and would, in case of war, become an added source of anxiety. Apparently all islands look alike to J. Bull, Esq.

Most of the office seekers who have interviewed President Roosevelt have a yellow, bilious, anti-administration taste in their mouths.

MURDER IN FIRST DEGREE

With Death Penalty Affixed.

Such Was the Jury's Verdict in Goddard Murder Case—Will Be Sentenced Friday.

"We, the jury find the prisoners guilty as charged in the indictment, and affix the death penalty." Such was the verdict of the jury in the Goddard murder trial, after a deliberation of only about half an hour after the case had been given to them.

While the case was one of the most important that has been tried in the court at this place for some time, the case had been so well prepared and the evidence was presented in such a manner that it was finished much quicker than it was thought it would be.

There were only seven or eight witnesses examined by the prosecution, but their testimony was absolute and not to be questioned or doubted.

Mrs. Goddard, wife of one of the murdered men, who was at the table with her husband when he was killed, positively identified the prisoners as the men who had been in the room at the time of the murder.

The scene was a most pathetic one when she pointed out the ruthless slayers of her husband.

Frank Goddard and Milton Turnbull, who were also at the table identified the prisoners as the murderers.

After the testimony of the other witnesses, the case was given to the jury for their verdict.

Because of an error of the enrolling clerk Arkansas is to lose the benefit of about 100 new votes. Arkansas ought to pension that enrolling clerk.

The claims for pensions growing out of the Spanish war number but 32,410—but then the war was very recently concluded.

It is becoming the fashion to refer to smashed up automobiles as 'badly wrecked as the Kansas City platform.'

The democrats might hope for success in 1904 if they only had a candidate and an issue, and a splitless party.

DEATH OF H. K. McDONALD.

This morning about 8:30 o'clock, when Mr. A. J. Head went to the room occupied by H. K. McDonald, at her house, for the purpose of putting it in order, she was horrified to find him lying on his bed dead.

Police at once telephoned Chief of Police Prince who went at once to the house and found the body of the deceased.

Mr. McDonald was a well known man in the city, and was a member of the Police Board, who called a coroner's jury and Health Officer Day and an inquest was held over the remains. The evidence given at the inquest was to the effect that Mr. McDonald had arrived in Prescott on the 11 train, yesterday morning from the south where he had been for several days past. He had been about town from that time on until about 4 o'clock, when he was last seen on the street. At 7 o'clock Arthur Webster, a little boy who helps Mrs. Head about the house, went to his room and saw him lying on the bed with his clothes on, apparently asleep. When found this morning he was in exactly the same position as when seen by the boy, which showed that he had been in his room, had been on the bed and had died, probably while asleep. He was lying in a perfectly natural manner and had passed away without even a movement.

He had been drinking very heavy for some time and the jury concluded that death had been caused by natural causes brought on by his excessive drinking.

Mr. McDonald was about 38 or 40 years of age and had been a resident of this section for a number of years, most of which time had been spent at mining, until the past two years, when he sold several mining properties realizing several thousand dollars for them. This seemed to be a cure to him, as he has been drinking very hard most of the time since that time, and has been in a money in dissipation until he was nearly at the end of his financial string. Being of a generous nature he was often impudently upon and virtually gave away thousands of dollars.

He was divorced from his wife some years ago. She now lives at Mesa and has her only child, a bright little girl about twelve years old. He carried a policy in the A. O. U. W. for \$2000 in his daughter's favor. He was also a prominent member of the order of Eagles, which order took charge of his body this morning and will conduct the funeral services.

Later—The funeral will be held Sunday morning at 10 o'clock. As the deceased was a member of the Masonic order and also the Knights of Pythias, it has not been decided what will conduct the funeral services, but very likely the Masons will have charge.

WORLD'S FAIR NOTES.

Brazil expects to spend \$500,000 in gold at the World's Fair, the president of the republic having recommended that amount.

One hundred and twenty five thousand square yards of soil have been laid in the preparation of World's Fair lawns. In addition, 72 acres have been seeded to blue grass by the Landscape department.

The World's Fair rose garden, which when first planted covered four acres was the largest in the world. It has now been increased to six acres. The site has proven all that was expected, and the young rose bushes are making splendid progress.

Thirty five miles of roadway have been constructed within the World's Fair grounds. A large portion of this is asphalt. Most of the roadways are generally shaded, and all are elaborately treated by the landscape architect.

Virginia creepers have been planted around the site of the Palace of Agriculture by Joseph A. Haddon, superintendent of out door planting in the department of agriculture. These vines will clamber over and cling to the walls of the great 19-acre structure.

SCOTT & BOWNE, Chemists, 109 N. 3rd St., New York City.

SCOTT'S EMULSION is sold in all drug stores.

GEO. PARKER

MARRIED

The Los Angeles Express of June 10 contains the following report of a wedding in that city one of the principal of which, Geo. Parker, was a former resident of Prescott, where he is well known and has a host of friends.

"Miss Lulu Botsford was married this afternoon to Mr. George Parker, the wedding taking place at the Church of the Angels, near Garvanza. The pretty little house of worship had been decorated with asparagus ferns and Easter lilies. At the end of each pew was a wreath of ferns, white lilies were fanned and masses of green about the altar. The bridegroom was of white ermine and white, and she wore a long tulle veil. Her bouquet was of white roses. The maid of honor, Miss Louise Woodard of San Diego, was attired in a pink gown, with which she wore a large white hat and carried a basket of sweet peas. The bridesmaids were Miss Ruth Messmore, white gowns and large white picture hats and carried pink sweet peas. Max Parker, brother of the groom, was best man, and the bride was given away by her brother, Mr. Leroy Botsford. Rev. Deggett, rector of the church, officiated, using the full choral service of the Episcopal church.

"When the hour for the marriage arrived the choir, marched down the church, singing 'The Voice That Breathed O'er Eden,' and met the bride party at the door. Then reversing the choir returned and as the bride and her attendants came forward to the altar rail, 'Oh, Perfect Love' was sung. The ushers marched down the aisle after the choir, and following them was the maid of honor. Then came the bride and her attendants. The two ring service was used. The betrothal ceremony preceding the marriage, and after the service was concluded, Mendelssohn's wedding march was played by Prof. Wilde, who presided at the organ. An informal reception was held in the corridor of the church, and then, as the carriage rolled away, the church bell rang out in a joyful tone.

"About 300 invitations had been issued and the church was filled with friends of the bride and groom. The bride, who has been a teacher in the Constock school for a long time, is prominent in the social world of Los Angeles, and the groom also has a large acquaintance here. He is connected with a business firm in this city. Mr. and Mrs. Parker will pass at least a part of the summer at Ocean Park, where they have taken a cottage."

Norton's Promotion.

Speaking of the recent appointment of F. J. Norton, of this city, as acting solicitor of the Santa Fe lines in California, one of the Los Angeles papers has the following to say:

"When the circular reached the office of General Manager A. G. Wells yesterday from E. D. Keena, the company's vice president and head of the legal department with headquarters in Chicago, and the news of the appointment was received with the highest approval of the Conservative Life building, Mr. Norton was the recipient of many congratulations. Ever since Captain Sterry's death he has been acting as general counsel for the Santa Fe in this jurisdiction. Last October he was appointed solicitor for Arizona and maintained headquarters at Prescott, where he looked after the company's interests until Vice President Keena ordered him to Los Angeles to relieve Capt. Sterry in his post. He was here for a great while and immediately he took temporary charge of affairs.

"Prior to going to Arizona Mr. Norton was first assistant attorney to Capt. Sterry for two years, coming here from Chicago, where he was employed for over two years in the legal department of the Atchison, Topeka and Santa Fe railroad. Before entering the railroad's employment he practiced with the well known firm of Messrs. Collins and Fletcher, Chicago, about two years.

"Mr. Norton is perhaps the youngest railroad solicitor in America, and his promotion at this time is no less gratifying to himself than to his many friends.

"Although still in his thirties, he has earned in newspaper work for a number of years before studying law. As staff correspondent of the Kansas City Journal, he was making marked success of his work, when he concluded prospects and opportunities more promising were offered in another profession. He is destined to be graduated a lawyer from the University of Kansas in 1904. Thence he went to Chicago. He is a native of Vermont."

A SERIOUS MISTAKE.

E. C. DeWitt & Co. is the name of the firm who make the genuine Little Early Risers. It is a serious mistake to use any other. DeWitt's Little Early Risars are the only ones that will not gripe, weaken or sicken; many people call them the Easy Pills. H. H. Howell, Hamilton, Tex., says: "I have gripe and sicken, while DeWitt's Little Early Risars do their work well and easy. Sold by Dr. Wiley Co., Corbin & Bork."

A FRIGHTENED HORSE.

Running like mad down the street dumping the occupants, or a hundred other accidents, are every day occurrences. It behooves everybody to have a reliable Salve handy and there's none as good as Bucklen's Arnica Salve. It cures all sores, eczema and piles disappear quickly under its soothing effect. 25c. at all drug stores.

KODOL GIVES STRENGTH.

By enabling the digestive organs to digest, assimilate and transform all of the wholesome food that may be eaten into the kind of blood that nourishes the nerves, feeds the tissues, hardens the muscles and recuperates the organs of the entire body. Kodol Dyspepsia Cure cures indigestion, dyspepsia, catarrh of the stomach and all stomach disorders. Sold by Dr. Wiley Co., Corbin & Bork.

DO YOU ENJOY WHAT YOU EAT?

If you don't your food does not do you much good. Kodol Dyspepsia Cure is the remedy that every one should take when the food does not do you much good. There is no way to maintain the health and strength of mind and body except by nourishment. There is no way to nourish except through the stomach. The stomach must be kept healthy, pure and sweet or the strength will let down and disease will set up. No food can be digested, assimilated, and made into blood, unless the stomach is healthy. Kodol Dyspepsia Cure cures indigestion, dyspepsia, catarrh of the stomach and all stomach disorders. Sold by Dr. Wiley Co., Corbin & Bork.

THE MORENCI STRIKE.

Morenci is in the hands of the militia today, says the Republican. Parts of six companies of the National Guard of Arizona are there, in all two hundred men. Sheriff Parks with sixty deputies and Captain Kyling's rangers. Seven companies of United States troops arrived last night, two from Huachuca, two from Fort Grant, and two from Fort Bliss. The five principal strike leaders are arrested and will have a hearing here, then they go to Tucson to jail.
